On which level of the house is this room located? _____ Is there a basement or crawl space below? _____

What room is above the space you are designing? _____ What is the age of the home? _____

Will you maintain existing floor plan? _____ Will you change the location of any existing walls? _____

Any construction barriers? Stairs? Elevator? Narrow doors? _____

What is the ceiling height of the room? _____

Description of Existing Wall Construction

Please check the investment range most realistic for your cabinets only.

- Drywall Wallpaper Paneling
- Plaster Paint Brick/Stone

Your Style Preferences

Our professional consultants will want to have a good understanding of how you want your space to look. Including some images of your current space and examples of what you want your new space to look like will help the consultant get a better feel for your desired look. Looking at images on our website or in magazines can help inspire your design. Items you may want to bring in:

Pictures of your existing room

Pictures of rooms you like

Colors you like

Materials and surfaces you like

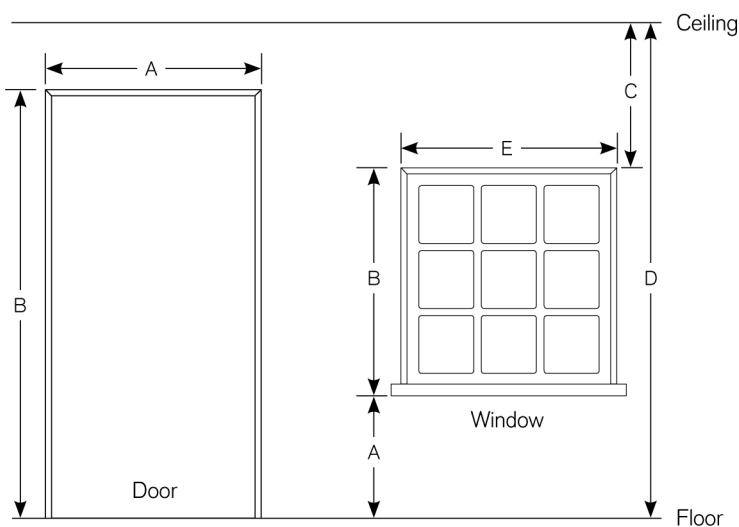

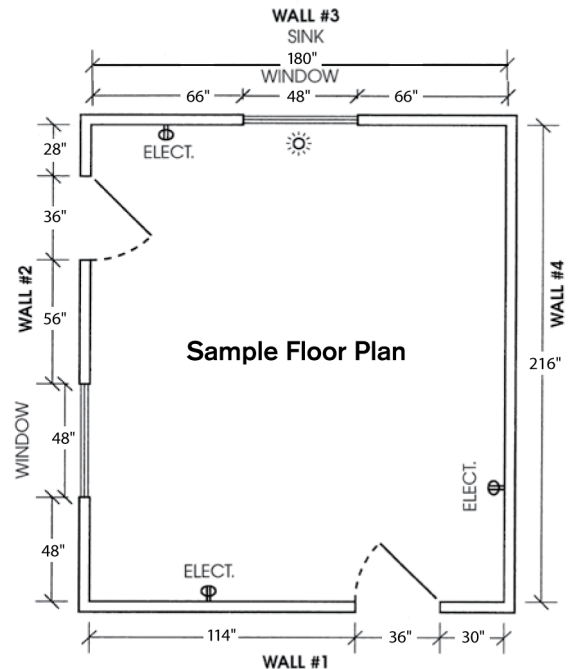

Room accents that reflect your style

How to Measure Your Space

A simple sketch of your room will help us get a feel for what your space looks like. Below is a sample floor plan. Once you figure out your dimensions, transfer the measurements to the grid on the following page. Here is some advice to help you get started.

Tips for Measuring Your Space

- Use a pencil to facilitate easy changes
- Measure in inches only
- Be sure to note all fixtures and utilities (with dimensions)
- Also note all electrical outlets/switches (with dimensions)
- Include location and size of windows and doors
- Note the size and location of existing appliances
- Indicate which way doors swing and into what rooms
- Breaks in walls and obstructions should also be noted
- Denote ceiling height and indicate any transitions, soffits and/or vents

Cabinet Style

Each room should have its own look and feel. This guide will help you and your consultant organize your thoughts and ideas. Simply answer the questions on how you want to utilize your space and you will be one step closer to building your new space.
